

Opening the Mac Pro First Generation Case

Opening the case will give you access to all the internal hardware parts of the First Generation Mac Pro.

Written By: Andrew Kim

INTRODUCTION

Prerequisite Only

Step 1 — Case Panel

- Lift the lever to unlock the case.

Step 2

- Remove the side panel of the Mac Pro.

 Discharge any static electricity by touching a grounded surface prior to working on any internal components.

To reassemble your device, follow these instructions in reverse order.
